Morris County's Latest News on Voting This November

POSTED ON: SEPTEMBER 18, 2020 - 10:08PM

The Morris County Board of Elections continues to update voters on what to expect as Election Day, Nov. 3, 2020 nears under Governor Phil Murphy's order for a primarily vote-by-mail election.

Some quick facts:

- All registered voters will receive a Mail-In Ballot via the U.S. Postal Service on or before Oct. 5.
- If you are an active, registered voter you will automatically receive a Mail-In Ballot.
- No application for that ballot is required for registered voters.
- Registered voters have alternative means by which to cast their Mail-In Ballots:
 - Deposit the marked and sealed Mail-In Ballot into one of the **15 Drop Boxes** being established throughout Morris County. There are currently five drop boxes in place. Another ten locations will be installed and will be available by Monday, Sept. 28.
 - Mark, seal and return the Mail-In Ballots via the U.S. Postal Service. The ballots must be postmarked on or before Nov. 3 and received by Nov. 10.
 - Drop off the marked and sealed Mail-In Ballot on Nov. 3, Election Day, between 6 a.m. and 8 p.m. at the **polling site** established in your town.
 - Each municipality has at least one in-person polling site where voters may drop off their Mail-In Ballots or vote in-person using paper provisional ballots provided at the **polling location**. A postcard providing your consolidated **polling location** will be mailed to you on or before Oct. 23.
- Voter Registration deadline for the General Election is Tuesday, Oct. 13.
- Sample Ballots will not be mailed out this election, but may be viewed on the Morris County Clerk website: <https://morriscountyclerk.org/index.php/elections/sample-ballots/>
